Maturely speaking, this book is a good guide for people or couple who wants to recalibrate their sexual life probably...and this is through erotic massage. Considering the art side of this massage, it will definitely make people not only a more intensely sexually attuned person, but also a more emotionally and spiritually attuned one.

Tantric massage is a form of body worship which includes extreme pleasure by getting to know the body and its erogenous zones. I did not have any knowledge about Tantric Massage before But now I know a lot. This book is an essential tool in educating the readers regarding Tantric Massage. This books was quite entertaining! It takes you on a detailed journey on the beginnings of the tantric practice. It gives a very profound discussion on the basics of tantric massage as well as the tips and techniques in order to use its benefits to the fullest. Totally Satisfied :-)

It has displayed a full new method of communication in my sexual love. It has powerful Pine Tree State and my better half to do new things and to feel a deeper reference to one another physically while not the act of sex. I extremely suggest new couples or troubled couples to browse this book

If you want to know how to have better massage and sensual connections with another person this is a great book to teach you how to do it. There are plenty of tips for enhancing your communication with your partner. I like how the author explains that love is a fluid prospect that encompasses everyone around us. It should be expressed sexually in the moment. It's interesting the author notes that traditionally it should be expressed through monogamy but there are also alternatives. it's an informative quick read.

I did not have any knowledge about tantric sex before and there were new things for me in this book. Unlike ordinary sex wherein couples tend to reach orgasmic release at different times, Tantric sex will help you attain mutual, timed bliss. The simultaneous outflow of passion and pleasure at the same time is a key ingredient in the shared, complete spiritual pleasure of Tantric sex, which is predicated upon a collapsing of the two individuals in a couple into a single organic whole, body, mind and soul.

It is to be sure something to be thankful for each couple to learn tantric back rub to encourage closeness and fulfillment in their relationship taking their harmony in a more profound and significant level. This book gave me something new about tantric back rub which was not in my mindfulness. This books was entirely diverting! It takes you on a point by point venture on the beginnings of the tantric practice. I have learnt a lot!!
