Customer Reviews

We love these books and my daughter enjoys them! I recommend cleaning the pages soon after they're done or they're harder to wipe off (need spray cleaner). It's definitely helping with the alphabet learning and letter writing practice! She also enjoys doing the dashed shapes of the animals and other items in each picture.

I received this as a gift for my 2 year old son. While he is a bit young for this book, he still enjoys looking at the colorful pages and drawing on it. The book does wipe clean, like its called, however if you do not wipe within a certain amount of time the marker does not come off as easy. Otherwise this is a great book and definitely worth the investment.

An interesting and easy way to practice writing skills. Glad we got it! It is true, however, that you

have to use the marker the book comes with. My younger son (2) loves it too, even though he can't quite stay on the lines, he loves drawing black squiggles all over the book like his older brother, and no wasting paper!

My 3 year old grandson really likes it. Colorful, engaging, and good fine motor practice.

missing pen but very clean
