Customer Reviews

This is an awesome tool to have if you have a Professor that you:A) Can't understand(verbally or sensibly)B) has a full lecture and can't explain in detail certain problems.This is something you will definitely want if your professor assigns homework from the book,BUT if you're professor has their own way of teaching, you might get lost.

The solutions manual was very helpful when I was trying to figure out how to answer a few Chemistry questions. It gives a very good step by step procedure how to answer the questions.

good and smart way to get used book in college.
