Customer Reviews

Purchased this as a gift for my stepdaughter, who is getting married soon. The spiral binding was not of the greatest quality, and it wasn't the easiest to put the booklet together before gifting it. I cannot provide any in depth review of the contents, as I am not the one using it, but it looked pretty, and I thought many of the available options (tabs, lists, etc.) might come in handy.

It was listed as sitting on a shelf with some dust and wear do to being "aged". I bought two so the bride had one and the maid of honor. Both bindings were broke and pages scattered, smells musty.

I'm not sure if I can even use them... consider it said fair to good condition, I guess it's my bad... I never order off line because of these reasons and it was proven true again.

I can get wedding ideas on-line just provide me with a nice book to write things down in. Very little area to write anything down except names and addresses of your guest. Who needs to hand write that?

This book is a life saver. It is a how to guide on how to plan a wedding. Nothing else is needed.

Had a lot that didn't apply so ended up not being useful.
