The Best Of Video Poker Times (and More)

Synopsis

The Best of Video Poker Times is a collection of some of the better articles from the bi-monthly Video Poker Times magazine published from 1993 to 1996. For those people seriously interested in playing video poker to win, this periodical is an important source of strategy, updated information, and bankroll advice to help the VP professional stay on top of their game and the serious non-professional get the best edge possible. The book is divided into several sections. The first covers game strategies. Many games are covered here with pay schedules both above and below 100% payback. Some of these games are unavailable at the present time, but if these pay tables ever show up again, and every now and then they do, the savvy player will be ready. The pay tables listed here do not include the most popular games, like full pay Jacks or Better or full pay Deuces Wild, because those strategies are listed in many places. They are also not nearly as comprehensive as Frome's Winning Strategies for Video Poker, but there are some games listed here I have not seen elsewhere. The second section covers bankroll considerations. This includes articles on evaluating a game's volatility, risk of ruin, bankroll requirements, etc.. These articles are pretty good, but a lot of this information is discussed in other places. Some of this information is fresh, but much of it isn't. The third section is titled "Miscellaneous Articles" and include good articles suggesting that VP professionals not act like jerks and bleed good games dry. It's important that the casinos make money off the machines that pay back better than 100% or they'll get pulled from the floor. This also means encouraging non-professionals to play (and lose money at) these games. Similarly, there are other good articles on the cost of errors and the future of video poker.
