Customer Reviews

I do not know if this person is using the word list for the United States or Europe. If he is in the U.S. I question his list, since I found two misspellings in the two letter words. They are zo (versus za) and ko (versus ki). It also includes gu which is not on the two letter list. There are other two letter words that are not acceptable. Since I would not recognize the incorrect words in the other lists, the book is useless to me. If Wolfram Kiewel is playing by European rules and lists then that should be stated somewhere.

Great wordlist but the format is a bit difficult to navigate on kindle- would be better as a book. It's laid out as the number of letters in the word, then alphabetically, so if you wanted to find words starting with "a" of four or five letters each, you would need to go to two different sections of the book. For the price, it is pretty handy.

Just a list of words. It would be infinitely better if it had a search available or chapters so you could easily find the first letter quickly.

Wanna kick yer Scrabble or Boggle score up a Notch! This is Great for getting rid of extraneous single letters at the end of the game!

Very disappointing as this word list does not contain all the words in the Collins Ultimate Scrabble Dictionary.

Terrible. Disappointed with my purchase. I wouldn't recommend this book to anyone.
