## Customer Reviews

I bought these hoping to use them with my elementary-school class, hoping my students could use them independently. They can't. Sadly, what the cards want the student to do is not always obvious. An adult is needed to read the instruction card that precedes each grouping of cards. Sadly, too, these instructions are not always clear. And don't drop the cards. Cards aren't labeled so you'll end up in a big game of grouping cards that appear to go together. In contrast, I can set my students off by themselves with the Brain Quest decks. Even bought at a discount (, Costco) these cards are too dear. From now on, I'll not buy cards of this sort sight unseen. I'll also not be inclined to give SYLVAN products the benefit of the doubt. I'd assumed SYLVAN was a quality educational company.

I don't like how thin the paper is for these cards.
