Customer Reviews

This review applies only to 'Chase, The Bad Baby,' the first book in this boxed set: This is the first Thad Murfee book that didn't "click" with me right from the start. It opens with the story of Chase of the title and his birth. Fair enough. But after several chapters about Chase, we jump to Morgana Bridgeman, a lawyer for a shady law firm and her problems. She almost takes over the book from that point, and in the first 20 chapters, Thad Murfee, the main character, only makes two brief appearances. Common, Mr. Ellsworth, you can do better than that. We want main characters "front and center" in their books. This story didn't really take off until about Chapter 30 or so but then it galloped to the end. Morgana Bridgeman's story was a little too contrived to be believable and preyed a little too much on the readers' hearts. Her turnaround should have been motivated by something other than events she had no control over. I would have liked to have seen the fallout her law firm suffered after the court case. The terrorist sub-plot "please, all authors, give that old nag a rest!" seemed an afterthought even though Ellsworth blended it in well with the rest of the book. I would have liked to have seen Thad effect his own escape from their clutches (readers like to see their heroes conquer all) rather than have him get free via someone else's actions. This review is of the second book in this set: 'Defending Turquoise'. I don't quite know what to make of this book. The plot is a gem: Thad is dealing with two murder cases. One is the high profile trial of the wife of the county DA accused of murdering him. The other is the trial of a Navajo teen accused of murdering the man who raped her repeatedly over six years.
