Lipid-Lowering Therapy And Progression Of Coronary Atherosclerosis (Developments In Cardiovascular Medicine)

LIPID-LOWERING THERAPY AND PROGRESSION OF CORONARY ATHEROSCLEROSIS

edited by
A.V.G. Bruschke, J.H.C. Reiber, K.I. Lie
and H.J.J. Wellens

Kluwer Academic Publishers

Synopsis

A unique overview of all major angiographic lipid intervention trials, presented by their principal investigators. Basic mechanisms and methodological aspects, including biochemical as well as angiographic aspects, are discussed by experts in these fields. A careful comparison of all available data permits an analysis to be made of what may currently be considered proved, which aspects merit further investigation, and which hypotheses should be rejected. Audience: Clinicians involved in the practice of lipid lowering and investigators involved in lipid-lowering clinical trials. Scientists involved in other areas of lipid research and investigators conducting coronary angiographic trials designed to study the influence of different interventions will find a wealth of information and practical guidelines in this book.

Book Information

File Size: 10728 KB

Print Length: 240 pages

Publisher: Springer; 1996 edition (December 6, 2012)

Publication Date: December 6, 2012

Sold by: Digital Services LLC

Language: English

ASIN: B00F5HSVYU

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Not Enabled

Lending: Not Enabled

Enhanced Typesetting: Not Enabled
