Customer Reviews

This book did little to offer any new information on how weather affects your health. Most of the information seems to be from a personal standpoint from the author. If you're looking for new information on how the weather affects your health, keep looking.

This subject has been reported on extensively in the media so this is just a condensed version of it all.

This was nothing worth reading I downloaded and will be soon taking it off my kindle :(sorry thought it was something else
