A Guide Book Of Washington And State Quarter Dollars (Official Red Books)

Synopsis

The Guide Book of Washington and State Quartersâ”the most recent addition to Whitmanâ”s Bowers Series of numismatic booksâ”is an in-depth study of our nationâ”s most popular modern coin. It features the colorful historical research that readers expect from Q. David Bowers (the âœdean of American numismaticsâœ), including a biography of Americaâ”s first president, the early years of the quarter dollar, and the history of the Washington quarter series starting in 1932. Bowers shares secrets of being a smart buyer in todayâ”s market. He analyzes each coin, date by date, from 1932 to 1998, and focuses a comprehensive section on each state quarter from 1999 to date. Certified and field populations, historical and current market values, and auction records add to the bookâ”s reference value. Full color throughout; illustrated

Customer Reviews

A Guide Book of Washington And State Quarters: Complete Source for History, Grading, and Prices provides a very specific, detailed resource for quarter collectors which pairs a history of quarter issues with tips on assessing coins, buying wisely, and valuing quarters from 1932 to date.

Illustrations in full color throughout make identification easy - along with a grading guide and the latest values. Any coin collector specializing in quarters must have this. Diane C. Donovan

This is a great book to introduce the beginner or the experienced collector to the Washington Quarter series of United States coinage. The overview and introductory material provides a great background introduction to the series. The real value of this book comes from the detail that is provided. Bowers provides a detailed look at each date and mint mark in the series. If you are thinking about putting together a collection of Washington Quarters, this is the place to start.

Although it was printed in 2007 it gives you a pretty good idea of what to look for in collecting quarters.

I bought it because I wanted information on these particular nickels and the Volume No. didn't make a difference in the info. I didn't want prices but just information. With a current series of coin I would want a current volume.

read this book over and over again. find out what's worth saving. you will learn all about each quarter's history of its specific years history of what took place that year.

The perfect backup materials for collecting. Great listing for each year with good facts about each year and what is the hardest dates to get

Another great add for the Bowers book collection...!
