Like the book. Don't appreciate the publisher didn't update our instructor on changes so we weren't sure what material was where to study until we wasted a good half hour doing it ourselves. Didn't send update. Guess they get their money and don't care (Pearson buying out education company).

great educational guide for this class. Loads of good and practical information for future law enforcement cadets.

I recieved this book in a timely manner. The book was in the conditon that the seller described. Very good product and I would purchase from the buyer again if need be.

The book arrived quickly, was in better shape than stated and saved me at least a hundred dollars

from the college bookstore price.

The book is in good condition. Easy to follow with interesting cases to follow along with the learning material. Enjoy!

Couldn't have been in better condition. And the best price known to man kind. Thanks for making education affordable !

Expensive books packs alot of education for a college student. It looks nice and worth keeping on your shelf

It is a good book for the specific course and has good info. It could be a little more detailed however.
