All The Bold Days Of My Restless Life: A Novel

Synopsis

If you are already the head writer on a daytime drama, can you say your life is just like a soap opera? That's the question facing Bailey Connors, who is dumped by her girlfriend, saddled with the 22-year-old daughter of a network executive and driven close to madness by a friend's attempt at matchmaking. To top it off, she has been ordered to kill off the soap's leading lady on a special live episode, which will either be a disaster or the triumph of her career. But either way, love may be waiting on the other side in a very unexpected manner. Sharon Stone is the author of *Love Letters in the Sand* and lives in Tampa, Florida.

Customer Reviews

If you've ever wanted to get an insider's look of a soap opera and be captivated by a lesbian romance, then look no further than *ALL THE BOLD DAYS OF MY RESTLESS LIFE*, the laugh-out loud novel that takes place on a daytime drama. Author Sharon Stone concocts a wild ride with main character Bailey Connors, the head writer on the soap billed with the same name as the book. Though it seems like a dream to work on a wildly popular show, Bailey doesn't have it easy. She not only has to cater to the stuffy suits of the network executives, but she also has to wrestle with the demands of the spoiled, egotistical actors who don't always agree with the scripts they've been given. It's enough to make a girl pull her hair out. And Bailey's not trying to hear it right now, especially after being dumped by her longtime girlfriend. Never fear, her trusty assistant Peter is there to save the day. Her flamboyant friend has a few prospects up his sleeve to help butch-looking Bailey to get back on the horse. But the women he sets her up with are horrible, to say the least. And

if Bailey's life could get any worse, she is stuck with one of the dumbest writers to ever live and has to rewrite months of scripts to kill off one of her favorite characters on the show. Talk about drama!! Stone's *All the Bold Days* novel is hilarious not to mention outrageous. It has a quirky sense of humor that reads sharply and very quickly. She creates a great peek into the world of daytime TV, giving tidbits into the soaps. The ending wraps up well, as you root for Bailey to land on her feet. Pick this one up if you need a good laugh.

I'm not a big fan of satire, so did not thoroughly enjoy the humorous side of this book. However, I was completely drawn into the underlying story. Bailey, the head writer for a daily soap opera with the same name as the book, seems to have a black cloud over her head. Her long-time girlfriend dumps her, her sarcastic response to a script change earns her a trip to the "Big Guy's" office, she is stuck mentoring a useless new writer who is related to a studio bigwig and ends up wreaking havoc, and she has to write off her favorite character. Of course, she has friends like Peter who want to help, but they only make things worse. While going through all of this, Bailey doesn't even realize she's falling in love with someone at work until it hits her square in the face. I found this book to be similar in structure / intent as *'Castaway'* by Advocate. The story was great, the characters were fun, but the comedy was a little over-done. This book is a great lazy-day read, but it won't be a permanent addition to my bookshelf. Enjoy it and pass it on.

If there was ever a book that fit the definition of zany, this one is it. Very few things make me laugh out loud, but I found myself in hysterics at the closing scenes. I'm not a fan of soap operas, but I do appreciate their spoofs. Bailey is the head writer for a show called *All the Bold Days of My Restless Life*. Every horrible cliché that applies to this type of show is attached to this one. What can you say about a show that has a main character named Aruba, her mother is Myrtle Beach and her stepsister is Bermuda Schwartz? Bailey's private life could be a feature story on her soap. After her girlfriend dumps her, her friend Peter arranges the three blind dates from hell. The first is with a woman who has a midnight online sex show and likes to use her dates as her "special guests." The second regales Bailey with details about why she has six children and how that has convinced her to start dating women. The last is a cop who gets drunk and starts shooting rats as they walk down the street, causing an encounter with some of New York City's finest. And then there is the fact that the two major stars of the show spend all of their time trying to do each other in professionally. Yes, it's light reading, not great literature, but sometimes it's just fun to read that.

In this soap opera spoof, the actors are as screwy as the people they play on the show. This book sucks you into their weird world and you won't want to leave! I loved the funny names of the soap characters, I loved all the personalities, I loved the way they interacted, and I loved the surprise ending. And I can only hope that with the way this book ended that there's a sequel in the works. I want more of these wonderful characters!
