Customer Reviews

This book provides lots of background for Vampire: the Dark Ages. It has what's going on with the different classes (Nobility, Clergy, and Peasantry) also it has background on the Italian City-States which was the largest cities at the time and allows the GM to have large campaigns that's in the city and in the countryside. It was a great start for my Venice game and recomend it for other GM's that want to set their game in or around Italy.

Good dark europe resource book even if you don't play Vampire, which I don't.
