Customer Reviews

learned some stuff about cats. Most of what I got from this book was how to deal with cat's territorial and behavior issues. I was hoping to teach cats how to do tricks, but that really isn't in here. It's

more about dealing with behavioral issues and rewarding good behavior. It's still pretty useful for the info provided.

This delightful book takes you by the hand and shows you exactly how to train your kitty to be an even better companion. This book is proof that they can be and it's not as complex or as time-consuming as one might assume. This book will help you train you cat in an easy comprehend-able read with plenty of tips and hints to help you out. Highly Recommended!

Before this book I just don't know anything about Cat Training. But now I'm training my cat. Very useful & informative book. Now I also have cat training equipment. This book explains everything about cat training. Recommended To Every Cat Owners :-)

I loved this book! As a new cat owner and a first time cat owner, I found this book to be so helpful in understanding my cat's temperament and behavior. I am so happy I purchased this book to be able to work with my cat to have an enjoyable life together.

This was a quick and easy read. It was informative without being overly detailed. This book has given me a broad range of topics to further research as I raise my kitten into a lion.
