Customer Reviews

Book came in on time and is very helpful! It can be a little hard to read but the information is concise! This books runs for about $200 at my school and i got it for $135 less!

Had to use this book for Health psych, I've actually had the luxury of having Dr. DiMatteo for a graduate course, and she's a delight. Nicest professor I've ever had.

The item arrived as expected but the book was not in the best condition. I am able to read it and i got it for a really good price so i am happy with my purchase

Book received before promised date from vendor. Excellent service. I would buy from them again.
