Customer Reviews

Unlike its US Coins counterpart, this book is absolutely worthless. If you are really into world coins, it doesn't give nearly enough detail. Best of all, it doesn't even really have Canadian coin values...it only shows the special edition coins since 1997!

One of the worst books I have ever laid my eyes on as far as the "purpose" of the book. If I could return it without losing more money, I would. Do not buy this book; TERRIBLE!!!!!! How they are able to sleep at night is a wonder. But, I also fault myself for not doing better research on a good reference book.

rather limited in its scope. not enough descriptions on coins with little or no writing on them. certainly

not enough photos. and what there are are black and white and very grainy. very djsappointing.
