Customer Reviews

Unrelated junk. Wrong or off target answers. EVERY question is followed by a plea to help them review the relevance or improve the question. Total waste of money and time.

Good q's but repeated. Some new material I'm not familiar with. Overall an ok review question booklet. I'm currently studying for my tcn and stn also has a review app full of study questions.

Very helpful in my studies for my TCRN exam. I would highly recommend this title when there is so little on the market for the TCRN prep

Not as comprehensive as exam- feel like the questions are too easy in comparison with the test
