Lol, thank you for sending this book in a timely manner. It was like a gift to myself :) Very informative and "definitely" helps aids as a test prep for airport firefighting techniques, strategies and tactics :D

It was delivered very fast. The book was used and I got a great price on it. I gave it a three star because it was used and written in which you would expect for a used book. I was very satisfied with it.

Very interesting book. Set up more along the lines of a trade instruction book and not a college textbook. Very well written and clear, easy to understand. I learned a lot from this Book. A++

Great Idea if you prefer a hard copy book instead of digital. Especially if your book is not available in digital format. Already have another one coming.

This book covers the info pretty good and the instructor stated that it is much better than the last edition.

I had a great experience!. The order was shipped fast and the book got to my hands new without any damages.

came as requested when requested don't know how much more to say, but they are making me type this out
