I feel at least 80% of these letters were about me. I need to rethink some things.

This book makes me laugh. I happened upon it one day in B&N and I'm glad I picked it up. I swear I could've written half of these letters! The book covers almost every type of moron out there. You will find a few you want to give to your coworkers, a few you want to give to your friends and a few you want to hand out to strangers. Uses for this book: Keep at work and reference for a good laugh on a slow Friday afternoon, Give to a friend you know appreciates this type of humor, or actually use the letters! Fun Times.

I got this book after I saw it in a store. It is hysterical!! I so want to use some of these letters on a daily basis! I put it out when I have guests over and they have fun reading through the letters. Great book if you need a good laugh or a conversation starter at a party.

Hilarious! There should be a letter for the person who gave this book a one star rating on .

Highly enjoyable and loads of laughs. Best way to kill time with some of your snarkier friends. Though I am curious about why they bothered with a table of contents (complete with page numbers for the letters) when the pages aren't numbered.

I was laughing so much (i was reading it in the plane so i had to be quiet) that my neighbor first thought I am having a seizure. After 10 minutes we were reading and having seizure together. Definately worth buying.

This was a gift and a good one. It was appreciated and I think it will be used by the recipient. You certainly won't need all 100 letters - a few are impractical really - but a few of these could be photocopied and copies kept in your car. You'll have need of them for the jerk who takes a parking space you've been waiting for at the mall, or for the inattentive waitperson at a restaurant. The letter are amusing to just read, even if you never use them.

These are hilarious to read. Many of them are so true, and express what I have felt in similar situations. I bought this as a gift for my husband, but we both have enjoyed reading the many letters. Great for a laugh and for stress release.
