Macbeth: Third Series (Arden Shakespeare)

Synopsis

Macbeth is one of Shakespeare's most performed and studied tragedies. This major new Arden edition offers students detailed on-page commentary notes highlighting meaning and theatrical ideas and themes, as well as an illustrated, lengthy introduction setting the play in its historical, theatrical and critical context and outlining the recent debates about Middleton's possible co-authorship of some scenes. A comprehensive and informative edition ideal for students and teachers seeking to explore the play in depth, whether in the classroom or on the stage.

Book Information

Customer Reviews

The Arden Shakespeare Third Series is the ne plus ultra of annotated study editions of the Bard's individual plays. This edition of Macbeth lives up to the series' impeccable academic standards, but the Kindle edition does not include the illustrations contained in the print edition--a major letdown, since these typically include photos from historically significant as well as contemporary productions of the play. A deal breaker for me.
