Cultural Competency For Public Administrators

Synopsis

With a focus on a broad spectrum of topics--race, ethnicity, gender, disability, and sexual orientation at the federal, tribal, state, and local levels--this book equips readers to better understand the complex, real-world challenges public administrators confront in serving an increasingly diverse society. PA scholars will appreciate the attention given to the role of cultural competency in program accreditation, and to educational approaches to deliver essential instruction on this important topic. Practitioners will value the array of examples that reflect many of the common tradeoffs public administrators face when trying to deliver comprehensive programs and services within a context of fiscal realities.
