Customer Reviews

Beautiful little logic puzzle book. I was expecting a paperback that I could fold all the way open, but this is a cardboard-back. The harder cover makes it more difficult to write in, but it's a quality book. Size and sturdiness make it great for travel. Once I finish all the puzzles, I plan on re-using the front and back cover for scrapbooking or card-making. I gave 4 stars instead of 5 because the cardboard cover makes it harder to write in.

I bring this book when I take the bus. I just get bored while waiting, but don't want to use my phone, that's why I bought this book. The cover has glitter on it, which made me worried at first, but they are sturdy and don't rub off so that makes me relieved! Nobody enjoys stray glitters... The content of this book is great! The problems are challenging but very doable! Also, it has the step-by-step answers in the back so if you are stuck, you can try to get a hint from there and finish the rest by yourself.

Just got my first Pocket Posh logic puzzle book and I must say that I am impressed. I was expecting this book to be cheaply made and something that might not last very long. I was wrong... the book has a semi-hard cover with an intricate design (sealed glitter) and even has an elastic strap to hold it closed. The pages are nicely formatted and easy to read. If you like logic puzzles and want a compact yet fashionably designed book... go with the Posh Logic 4. The only complaint I have is the design... I really wish they made a basic design that was not as flamboyant. But... it is Posh. ;)

I bought this to stop mindlessly looking through Instagram, Facebook, etc. on my phone whenever I'm waiting around or bored. It's the perfect size to carry around in my purse and I absolutely love all of the puzzles:) It's well worth the money and keeps me off of my phone and my mind engaged!

Just the one I was looking for. I only do matrix puzzles. I love the format of the Matrix. Great.

This is a collection of 100 Sudoku puzzles. These puzzles are a mix of Sudoku and math. There are 3 difficulty levels (easy, medium and hard). There are 3 puzzle sizes (4 by 4, 5 by 5, and 6 by 6). At the end of this "Book which is suitable for a purse" are a few puzzles of challenger difficulty.

A little disappointing because I thought it would contain a variety of logic puzzles but they are all the same type of puzzle. It's great for someone who likes this type of logic puzzles
