A Kids Book About Bullying: Teach Kids How To Deal With A Bully

Synopsis

Bullying is a serious problem in today's society, one that kids often have to deal with, at school or in the play yard. The book "A Kids Book About Bullying: Teach Kids How to Deal With a Bully" by children's author, Dee Phillips, takes a look at bullies and why they bully other kids, and how kids can deal with them. This book is in simple to understand language that kids who already have the skill of reading can read for themselves, but it is advisable for parents and kids to read this book together in case the child needs to talk about the issue. The text is in smaller blocks and sentences, accompanied by engaging pictures. "A Kids Book About Bullying" can be downloaded easily so you and your child can benefit from it in no time at all. Help your child learn to deal with bullying before the problem arises, or especially if the child is already being bullied.

Customer Reviews

This book was 24 pages long, all of which were no more than 50% text, some significantly less, certainly more than one page was illustration only. One could call this book a well-illustrated informational pamphlet. The title has two parts: "A Kids Book About Bullying:" and "Teach Kids How to Deal With a Bully". The source material directed toward kids was quite good. Most bullied kids

want to understand why bullies act the way they do, and how to respond, and the material offers information appropriate for elementary school aged children. (I'm not sure I agree about "never" fighting back.) The second part of the title, "Teach Kids How to Deal with a Bully", implies that there may be some source material for parents. There was none. All the text was directed at kids. I recommend appending the title for a future edition. The length and format of the book is appropriate for "A Kids Book About Bullying", but to state more in the title can mislead the buyer.
