Death Sung Softly - A Sam Prichard Mystery Mystery Thriller

Synopsis

USA TODAY & #1 BESTSELLING AUTHOR & ONE OF THE BEST NEW VOICES IN THE ACTION THRILLER GENRE & With over 250,000 books sold, and well over 1,000 five star reviews on , the Sam Prichard series is quickly storming the charts. David Archer's ability to create exciting, page-turning, action and suspense is second to none. Fans can't get enough it, but don't take my word for it. See what all the fuss is about before Archer becomes a household name!SEX, BOOZE, AND... MURDER?Meet retired cop, Sam Prichard.Sam opens his practice as a Private Investigator, and gets his first real case almost instantly: Find Barry Wallace, a local rock singer who was on the verge of making it big, and vanished suddenly! When Barry's body turns up minus his head and hands, the case becomes ominous, and now he has to find a killer, instead!The evidence comes together, and leads to the discovery of the missing body parts on the estate of a well known talent agent, who stood to gain a lot of wealth if Barry had only agreed to sign the contract he had arranged, and the man is arrested for murder. But Sam gets a bigger surprise when that same man hires him to prove his innocence, and Sam follows a convoluted trail of clues to discover who really killed Barry, and wanted to frame the agent for the crime!Meanwhile, Sam has blundered into taking a job as the new lead singer for Barry's band, and may be on the edge of a whole new career for himself! Come along for the ride, and you'll get to hear Sam Prichard sing his heart out!

Customer Reviews

This is a quick and entertaining read with lots of typos and grammar errors. It reads a bit like a fairy tale where everything gets neatly wrapped up so the main characters can live happily ever after. The author has clever creative ideas but needs a copy editor to clean up the finished edition.

I read the first and thought it warranted reading the second installment. The romance is overly cute and tedious. Too many quirks, the hermaphrodite, the neurologically damaged rescue cat, etc. It is not unique to this book but I am getting tired of the super-hacker buddy who gets into all files easily. It's getting to be the *deus ex machina* of mystery and thriller novels.

I really enjoyed the first book, so I jumped right into the second book which really is a clear continuation. The story itself was fine. I got into this series because it was advertised as a Mystery Thriller. There was way too much content focused on the developing love between Sam and Indy. Way too much. It's like the author needed to fill in space after the story was written so he went back and detailed puppy love as a filler. If the trend continues in book three, I promise you I won't finish it. I do like Mr. Archer's writing style, the books are easy to read, and so far the stories have been well thought out and believable. That's important to me. -MD

I got this for FREE, and am glad I did. NOT impressed....as much as I was w/ the Grave man. This is the 2nd book of the series. It did have a crime in it that Sam solved BUT, it mostly covered his new flame....along with " " sophmorkc " SWEETNESS when chatting with his girlfriend. Hoping the NEXT book will be better. His " romance " could have been covered kn a few CHAPTERS...not the whole book :(Pass on this one

I read about 30 pages and gave up in disgust. I don't know where to start. Characters faceless blobs. Writing just dreadfully simplistic. Romantic parts ludicrous. He's a retired police officer turned PI. Gets his first job minutes after putting an ad up. Is encouraged to sing for a band that's lost it's lead singer (the very person he's been hired to find)...and when he sings, the professionals are blown away by his amazing voice and personal style. That's when I turned off my Kindle and went to find a stiff drink.

I read the first book in this series, which was free and I loved. So, I bought this one, book 2, and am glad I did. I've already bought book 3, so that says a lot regarding how much I enjoyed the main characters and this author's plots and subplots. I will say there were many editorial errors in book 1, but I'm in the process of sending them to Mr. Archer so he can fix them and resubmit. Still, it was the best free mystery I've read in quite awhile and I'm an avid reader. Now, this book. I enjoyed how Sam and his girlfriend, Indie, worked together to solve the mystery he was hired for in his new P.I. business. It involves people in the music business in the Denver area. Sam and Indie's relationship evolves quickly but cautiously because of Indie's four year old daughter, Kenzie. They make a great team. Sam used to be a policeman until he got shot. But, before that he sang in garage bands. Since the lead singer of the group Sam is working for got killed, he falls into a temporary lead singing role. Real songs are embedded within this book that are very good. There were two that I would have bought, but they're not for sale....Yet. I highly recommend this series from David Archer. Great entertainment.

rating based on the writer's ability to keep the reader's attention throughout the entire story. I believe that Mr. Archer deserves the accolades he has received in the past and I am already looking forward to the next novel in line. To, Mr. Archer has been very professional in the fact there is limited profanity throughout his novels thus far, and I appreciate that very much. Good Job!

This would be a great addition to this genre of writing if only it had better editing before being published. There were so many spelling errors, run on words, words split indiscriminately, etc. It seemed as if the author sat down at the computer (or typewriter) and wrote the book without ever going back to check for errors. Such a shame because the protagonist is very likeable and would add a great new hero to this genre.
