Set in 19th century Austria, Laura is a lonely young woman living with her father and their two servants in the Styrian countryside until one fateful night when she and her father encounter a mysterious stagecoach barrelling through the forest near their house. Rather rashly, her father agrees to let the sickly young woman inside stay in their house while her strange mother continue on her journey. And then people in the surrounding area start dying of an unknown disease and the peasants start muttering about an â œoupireâ •. Who, or what, is Lauraâ™s new friend, Carmilla, really â “ and will she survive the encounter long enough to find out? Nowadays vampires are so prevalent in popular culture, nearly everyone knows about them. Their traits, their behaviours, every aspect of the vampire is so well defined that this Victorian story can seem quaint in the way it plays

up the mystery of Carmilla. But when J. Sheridan Le Fanu's novella Carmilla was published in 1872 (the year before the author's death), the vampire was a relatively unknown creature in popular culture. In fact, Carmilla is credited by Stoker as an influence in the creation of his novel, and it's easy to see why.
